MESSAGE

I am very happy to release the **Gram Panchayat Citizen Charter**. Along with the entire world, India has been going through an unprecedented crisis of covid-19 pandemic formore than a year. Our Panchayats have played their valuable role as democratic institutions at the grass root level during this crisis. The Central Government has recently transferred funds directly to the Panchayats on the basis of the recommendations of the 15th Finance Commission. Panchayats have a huge responsibility to use their best practices and work with full potential in bringing good governance to the villages. The Gram Panchayat Citizen Charter will prove to be a milestone in this direction.

The basic objective of the Gram Panchayat Citizen Charter is to empower the citizens in relation to public services and to improve the quality of services in accordance with the expectations of the citizens. I sincerely hope that the Gram Panchayat Citizen Charter will be successful in achieving its goals and promote a full and strong democratic system responsible at the village level. This will help the Panchayats to reach all sections of the community without any discrimination. Those States, in which Gram Panchayats have already defined such standards for themselves, may modify this Charter as per their need.

On this occasion, I would like to give special thanks to the elected representatives of the Panchayats, due to whose continuous efforts this Charter will prove to be a historical gesture towards sustainable self-government.

(Narender Singh Tomar)

Message

It is imperative for the local self government to be responsible to the citizens in a democratic system. Panchayats have been entrusted with many important tasks related to the everyday life of the people. The aim of administrative services is to provide services to the people by contacting them directly, redressing their grievances and improving their lives. Since the establishment of Panchayati Raj system in the country, the Central Government has taken several measures to make the Panchayats, a responsible administrative unit. To make these institutions self-reliant in financial form, funds are being given directly to the Gram Panchayats under the Central Finance Commissions.

Gram Panchayat Citizen Charter is a revolutionary initiative in the direction of making the role of Panchayats meaningful and fulfilling. This will help in making the citizens aware of their rights on the one hand, and to make the Panchayats and their elected representatives directly accountable to the people, on the other hand.

I sincerely hope that all Gram Panchayats will take steps to formally adopt this charter in a meeting of the Gram Sabha and the arrangements made in this Charter will be helpful in streamlining the local administration and improvement in service delivery will change the lives of the people. On this occasion, I congratulate all the Panchayats, their elected representatives and all the residents of the villages.

(Sunil Kumar)

Model Citizen Charter for Gram Panchayats

3. Introduction

A Citizens' Charter is a tool to achieve good governance. Successful implementation of Citizens' Charter improves service delivery, brings responsiveness on the part of Panchayat functionaries and enhances Citizens' satisfaction.

4. Gram Panchayat Citizens' Charter

The need for 'Gram Panchayat Citizens' Charter arises for better service delivery. It is a document that represents the commitment of the Panchayat towards standard, quality and time frame of service delivery, grievance redressal mechanism, transparency and accountability.

Model Citizen Charter for Gram Panchayats

5. Objectives of 'Gram Panchayat Citizens' Charter

The basic objective of 'Gram Panchayat Citizens' Charter is to empower the Citizens in relation to public services and improve service quality on the lines of Citizens expectations. The creation of Charter brings professionalism in Panchayat functioning and helps to reach out to all sections of community without any discrimination. The standards committed by the Panchayats are useful yardsticks for monitoring and evaluation of service delivery.

6. Process of Preparation of 'Gram Panchayat Citizens' Charter'

The Citizens' Charter is to be formulated by each Panchayat separately. For preparing the charter the Panchayats shall discuss the various services provided to the Citizens, the conditions Citizens shall have to fulfil for getting a service and the time limit of each service. While preparing the charter the Panchayat

Model Citizen Charter for Gram Panchayats

should seek the views of the Panchayat Secretary and other officers of the concerned line departments. The charter should include only those services that are delivered by the Panchayat on a regular basis. Simultaneously the Panchayat should also decide the fee leviable for particular services.

The 'Gram Panchayat Citizens' Charter should include the following information.

- i. **Vision and Mission of the Panchayat:** The first key component of Citizens' charter is a clear statement of Panchayat "Vision and Mission". The vision implies ultimate direction in which the Panchayat seeks to move. The Mission statement provides the specific objectives which drive the Panchayat in tune with the vision.
- ii. **Service Standards / Procedure for obtaining services:** For obtaining a service listed in the charter, the eligible citizen shall apply to the designated officer along with the essential documents and also pay the prescribed fee if any. The designated officer upon receipt of the request shall record the details in a

Model Citizen Charter for Gram Panchayats

register and assign a serial number and issue an acknowledgement to the applicant indicating the probable date by which the service will be rendered. The designated officer / functionary of the Panchayat have obligation to render a service to the eligible applicant within the given time. On receipt of an application he /she shall within the stipulated period either provide service or reject and in case of rejection the reasons for not providing service shall be intimated in writing. Following information need to be provided under service standards.

- Name of the service
- Details of the service (including beneficiaries and eligible persons)
- Time frame to deliver the service
- Name and contact details of the person in the Panchayat responsible for providing the service.

Model Citizen Charter for Gram Panchayats

- iii. **Grievance redressal:** The Sarpanch and the Panchayat Secretary must be accessible to the Citizens to listen to the grievances and make arrangements to address the complaint effectively. Timely redressal of Citizens grievances not only reduces discontent, but also helps Panchayat to improve its functioning. If the citizen feels that the Panchayat has failed to provide a service, he can file an appeal before the designated higher authority. The contact details of the authority to whom citizen need to contact for any such complaint need to be included in the charter.

Template / Model for a 'Gram Panchayat Citizens' Charter' is provided in the **Annexure.**

The model charter is only a guideline for the Panchayats and they can adapt it as per their local context. The draft charter prepared by the Gram Panchayat shall be widely circulated among the people and get approved in Gram Sabha.

Model Citizen Charter for Gram Panchayats

It may also be noted that in instances, wherein Panchayats are not competent enough to directly offer services at the local level, they would act as the facilitators for the residents to avail the requisite services.

Panchayats would collect and collate the necessary paperwork from the service seeker and forward it digitally to the concerned line department for processing. They would also evolve suitable mechanisms for following up with and ensuring timely closure of the service requests by the respective line department.
